- Difficulty Sleeping from Leg & Foot Discomfort
- Prickling or Tingling Feelings of Feet
- Sharp Electrical-Like Pain

### **Now a New, Innovative and Exclusive Treatment Solution!**

- Relieves Pain
- Restores Feeling
- Proven Safe & Effective
- No Surgery
- No Addictive Medications, and May Allow a Reduction in Medications You're Taking
- May Be Covered by Your Medical Insurance

As these conditions progress, they can cause a shrinking of the blood vessels resulting in pain, numbness, burning or tingling. These are all symptoms of neuropathy. Neuropathy can be caused by several different conditions such as diabetes, multiple sclerosis, strokes, kidney problems, liver problems, poor circulation as well as simple nerve entrapments.

We're proud to offer the latest technology—*with the most care.*

Schedule your appointment with us today.

Dr. Dunn is a Chiropractic Physician and Registered Nurse who has treated thousands of neuropathy sufferers over the last decade.
